Wei (James) Chen (陳 暐)

National Taiwan University (國立臺灣大學)
Dept. of Agricultural Economics (農經系)
Assistant Professor
Updated: November 11, 2026

Cell: +886 966 023 019
Email: jamesweichen at ntu.edu.tw
Homepage: https://jamesweichen.github.io/
Citizenship: Taiwan (R.O.C.)

Teaching and Research Fields

Primary Fields: Behavioral/Experimental Economics, Neuroeconomics

Secondary Fields: Game Theory, Decision Theory, Political Economics, Environmental Economics

Professional Experience

Assistant Professor, 2021–present
Department of Agricultural Economics, National Taiwan University

Assistant Professor, 2020–2021
Department of Business Administration, National Central University

Assistant Researcher Fellow, 2019–2020
Behavioral and Data Science Center, National Taiwan University

Associate Researcher Fellow, 2018–2019
College of Psychology and Sociology, Shenzhen University

Postdoctoral Fellow with Liang Guo, 2017–2018
Marketing Department, The Chinese University of Hong Kong

Education

Ph.D. Economics, The Ohio State University, 2015–2017

Ph.D. Candidate in Economics, Pennsylvania State University, 2011–2015 (Transferred to the OSU)

M.A. Economics, National Taiwan University, 2009–2011

Visiting Student, University of California Berkeley, 2010 spring

B.A. Economics, National Taiwan University, 2004–2009

Grants & Awards

NSTC Research Project for Newly-recruited Personnel （國科會新進人員研究計畫）, 2025 – 2027

National Taiwan University–Academia Sinica Joint Innovative Research Program (國立臺灣大學與中央研究院創新性合作計畫), 2025

MOST Grant for the Einstein Program (科技部愛因斯坦培植計畫), 2020/2021/2022/2023/2024

Decision Sciences Small Research Grant at the Ohio State University, Fall 2016

Winner of the Market Entry Prediction Competition, 2010

Book Chapter

Wang, Joseph Taoyi, and **Wei James Chen**. (2019). "A Handbook of Process Tracing Methods.", ed. Joseph G. Johnson Michael Schulte-Mecklenbeck, Anton Kuehberger *Society for Judgment and Decision Making.* 2nd ed., Chapter Investigating Pupil Dilation in Decision Research, 45–52. Routledge.

Working Paper

Does Disaster Relief Encourage High-Risk Planting? Evidence from Banana Farmers' Planting Timing in Taiwan, with Yan Han, *R&R at Taiwan Economic Forecast and Policy*

The Transparent-Door Monty Hall Problem: An Experimental Study of Learning and Bias, with Joseph Tao-yi Wang, *R&R at Journal of Economic Psychology*

The sampling unit shapes behavioural similarity in large language model simulations, with Zhi-Hong Howie Jian

Research Design as Evidence: Information and Incentives in Peer Review, with Greg Chih-Hsin Sheen and Wei-Cheng Chen

Cap or Tax? Experimental Evidence on Carbon Policy under Market Power and Real Emissions, with Ya-Ting Chuang

Third-Party Litigation Funding on Settlement: An Experimental Study, with Wei-Cheng Chen

Pupil dilation amplifies gaze bias in value-based choice, with Ian Krajbich

"Will" it be Seen? Using Eye Tracking to Reexamine the Future Tense Effect in Intertemporal Choices, with Jiang-Shiang Hu and Josie I Chen

Exploring the Impact of Representative Systems on DecisionMaking: An Experimental Study on the Tendency to Favor Options with High Probability but Small Impact, with Ching -Yuan Kao

Does combining general election and electoral referendum increase the voter turnout? A gamified experimental study, with Yu-Pei Chen and Greg Chih-Hsin Sheen

A Broader Window of Cognition: Eyetracking and Mousetracking the Reasoning in Spatial Beauty Contest Games, with Yu-Hsiang Wang and Joseph Tao-yi Wang

Conference Presentation

The Sampling Unit Shapes Behavioural Similarity in Large Language Model Simulations, forthcoming, *Workshop on the Impact of AI on Human Learning*, Nice, France

Carbon Footprint Labels and Food and Beverage Choice: Eye-Tracking Evidence from MaaDDM, 2026, *Economic Science Association World Meeting*, Los Angeles, USA

The Sampling Unit Shapes Behavioural Similarity in Large Language Model Simulations, 2026, *Asian Meeting of Behavioral and Experimental Research*, Osaka, Japan

Allocation Rules and Market Power in Carbon Trading: Evidence from Laboratory Experiments, 2026, *Asia-Pacific Economic Science Association Meeting*, Melbourne, Australia

Cap or Tax? Experimental Evidence on Carbon Policy under Market Power with Real Emissions, 2025, *North American Economic Science Association Meeting*, Tucson, USA

The Sampling Unit Shapes Behavioural Similarity in Large Language Model Simulations, 2025, *Asia-Pacific Economic Science Association Meeting*, Osaka, Japan

Neural Bases of Epiphany Learning: An fMRI Study Using a Race Game (Poster Presentation), 2024, *Society for Neuroeconomics Annual Meeting*, Cascais, Portugal

Exploring the Impact of Representative Systems on Decision Making: An Experimental Study on the Tendency to Favor Options with High Probability but Small Impact, 2024, *Asian Law and Economics Association Annual Conference*, Tainan, Taiwan

Insights into Epiphany Learning Across Different Games: An Experimental Approach, 2024, *Learning, Evolution and Games Conference*, Brisbane, Australia

Exploring the Impact of Representative Systems on Decision Making: An Experimental Study on the Tendency to Favor Options with High Probability but Small Impact, 2024, *Foundations of Utility and Risk Conference*, Brisbane, Australia

The Impact of Pre-Quorum Information on Voter Turnout, 2024, *Asia-Pacific Economic Science Association Meeting*, Singapore

"Will" it be Seen? Using Eye Tracking to Reexamine the Future Tense Effect in Intertemporal Choices, 2023, *International Workshop on Experimental Economics*, Osaka, Japan

"Will" it be Seen? Using Eye Tracking to Reexamine the Future Tense Effect in Intertemporal Choices (Poster Spotlight), 2023, *Society of Neuroeconomics Annual Meeting*, Vancouver, Canada

Does combining general election and electoral referendum increase the voter turnout? A gamified experimental study, 2023, *Asia-Pacific Economic Science Association Conference*, Seoul, South Korea

Pupil dilation and attention in value-based choice, 2019, *Decision: Theory, Experiments, and Application*, Chengdu, China

Pupil dilation and attention in value-based choice, 2018,
International Conference for Neuromanagement and Neuroeconomics, Hangzhou, China

Pupil dilation and attention in value-based choice, 2016,
North-American Economic Science Association Conference, Tucson, USA

Pupil dilation and attention in value-based choice (Poster Sessions), 2016,
Society of Neuroeconomics Annual Meeting, Berlin, Germany

Pupil dilation and attention in value-based choice, 2016,
TIBER Symposium on Psychology and Economics, Tilberg, Netherland

Epiphany Learning, Attention and Arousal, 2015,
North-American Economic Science Association Conference, Dallas, USA

Epiphany Learning, Attention and Arousal (Poster Sessions), 2015,
Society of Neuroeconomics Annual Meeting, Miami, USA

Epiphany Learning Model, 2013,
Asian-Pacific Economic Science Association Conference, Tokyo, Japan

Bounded Memory, Inertia, Sampling and Weighting Model in Market Entry Games, 2010,
North-American Economic Science Association Conference, Tucson

Learning to Solve the Monty Hall Problem With An 100-door Treatment, 2009,
International Economic Science Association Conference , Washington DC
